

# Catalogue 2024

**We manufacture your toothbrushes  
and bathroom accessories in our  
factory in France.**

**SEMENTIS**  
Manufacturer of everyday objects

## / Editorial

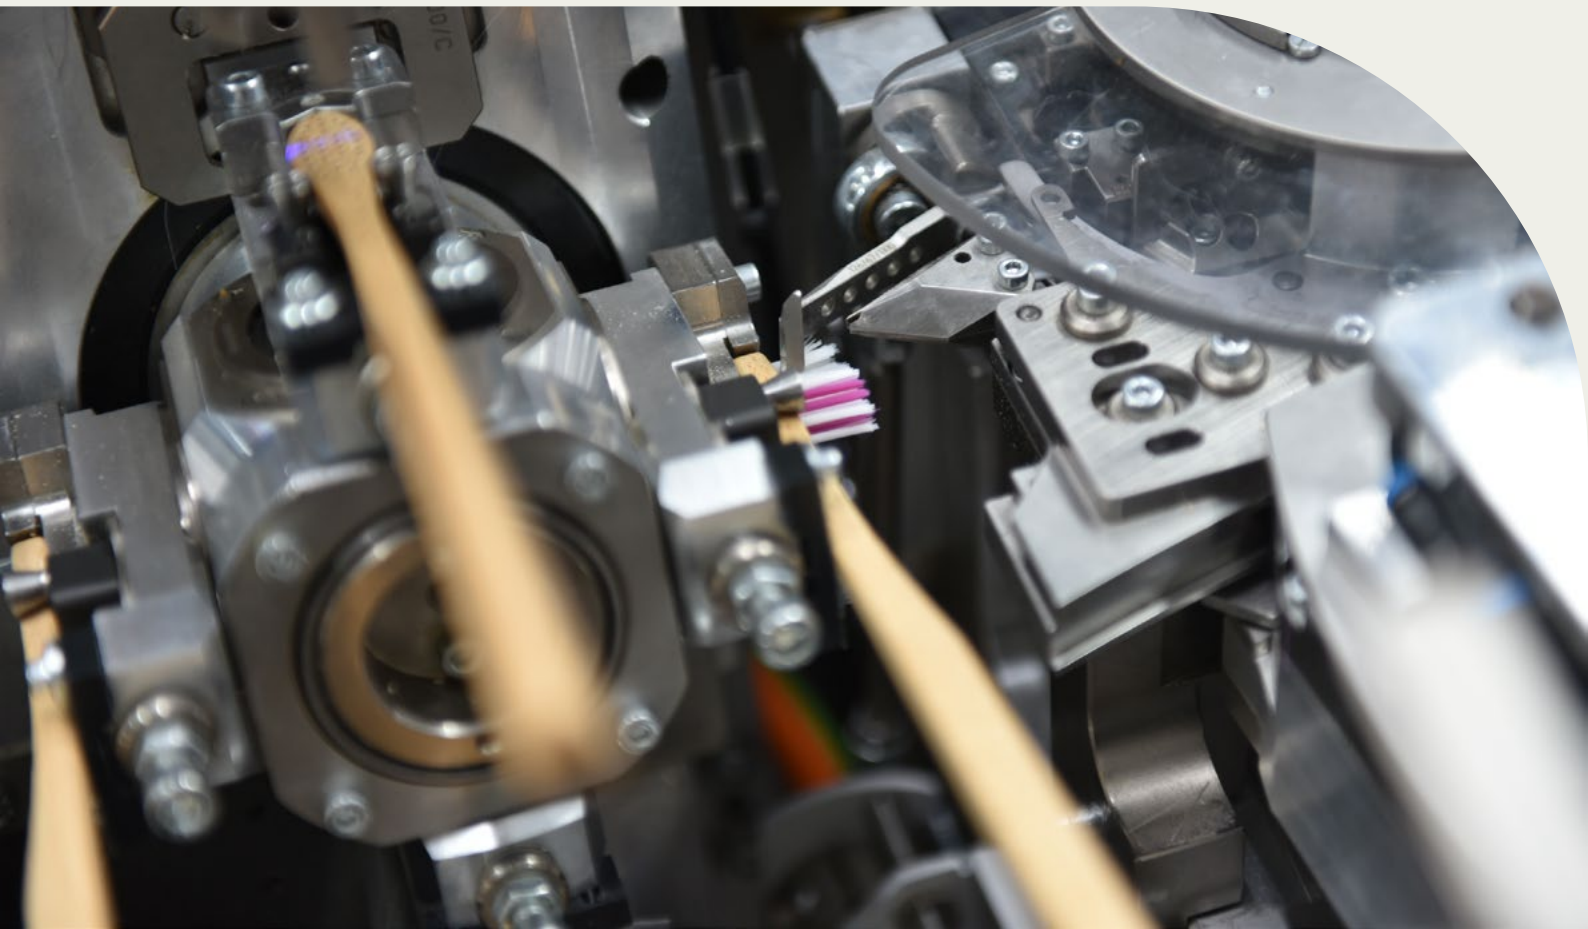

Sementis is specialised in the **manufacture and development of eco-friendly accessories** on the French market but also for export markets (EU and non-EU).

We particularly develop **rechargeable toothbrushes** that significantly reduce the use of plastic and **we are the French manufacturer of the magnetic soap holder** (Winner of the Natexpo Innovation Bio Silver Award).

We are focusing on the **re-engineering of know-how and reducing waste**, by using bio-based, and / or recycled, and / or recyclable materials.

We promote **optimised production to minimise our environmental** while maintaining a high degree of **flexibility to meet your specific needs**.

**Shall we discuss your project ?**

# / You are...

**...a cosmetic brand and committed to sourcing the best ingredients for your cosmetics?**

Let's build together your range of accessories in line with your cosmetic

**... a distributor looking to build your own range of bathroom accessories made in Europe ?**

Then challenge us with your specifications!

**You want to distribute an existing brand of bathroom accessories?**

We can offer you two types of ready-to-sell ranges

**...a hotel operator aiming to offer the best to your guests?**

We can offer you a whole range of accessories for your Amenities that can be integrated into your gift shop.

**...a promotional products agency looking to renew your catalogue with responsible and European-made products?**

We will respond with a personalised offer and a superior quality level.

## / Services

**Our “private label” model allows you to quickly develop your product portfolio with a reduced initial investment and simplified production operations management.**

An expert in bathroom accessories since 2017, the founding team of Sementis has developed strong industrial skills to work with you with on various everyday objects used in the bathroom and made from wood, metal, or bio-plastic.

You focus on your brand, and we take care of faithfully translating its universe and values through responsible and quality everyday accessories that reflect your brand's image.

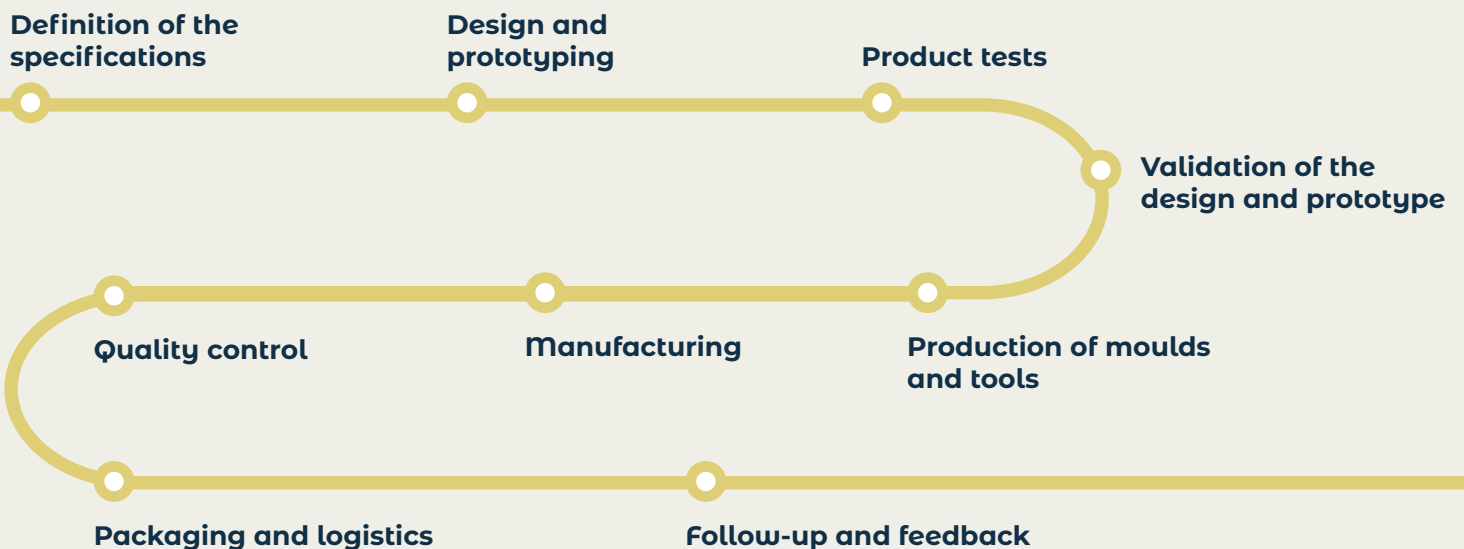

From product design with our in-house design office to the delivery of your order, we provide an A to Z service to simplify your life.

Our customisation options are limitless, from laser engraving an existing product (in stock) to designing a new handle shape unique on the market.

## / Private label

**Here are the typical steps of collaborative work between you and us.**

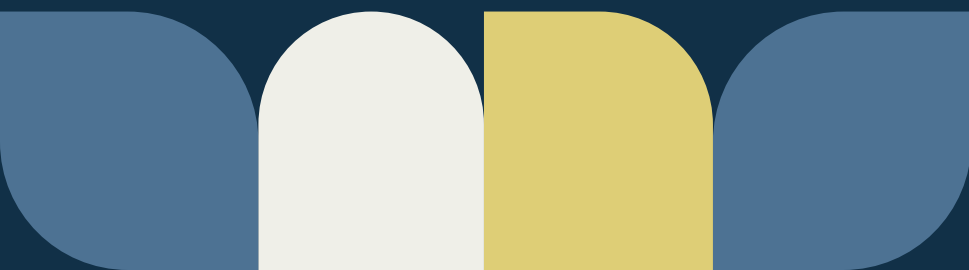

This collaboration involves close coordination and regular communication between you and us. Thus, we can deliver a final product that perfectly meets your expectations and those of your customers.

# Around the teeth

**All our toothbrushes are manufactured in our factory in France: the guarantee of high quality and reactivity.**

# Refillable toothbrushes

■ ■ Made in our factory in France

## / Handles

The responsible toothbrush by definition.

Imagine associating your brand with this promise: «With our toothbrushes, you save 90% of the plastic related to tooth brushing» (versus using 4 conventional toothbrushes in a year).

### Refillable bioplastic toothbrush

The best quality/price/responsibility ratio on the French-made toothbrush market.

#### Product personalisation

- > Handle shape
- > Handle colour
- > Available for adults and children

### Refillable bi-material toothbrush

A concept of a rechargeable toothbrush in its most design version.

*Wooden handle and a bioplastic head for the rechargeable head.*

#### Product personalisation

- > Top handle colour
- > Wood essence
- > Laser engraving on the handle
- > Available for adults and children

## Made-to-measure design

From an immediately available stock to designing a unique handle shape, we support your project with the highest level of customisation.

**Choose the bristle hardness, materials, and colours, and let us guide you.**

## / Refillable toothbrushes heads

■ ■ Manufactured in our factory in France

The toothbrush head that will captivate your customers. For its intrinsic brushing qualities but also because this head will be yours, your brand's, and will not be found elsewhere with the same specifications.

#### Product personalisation

- > Bristle materials
- > Bristle hardness
- > Colours

### Refillable Toothbrush head

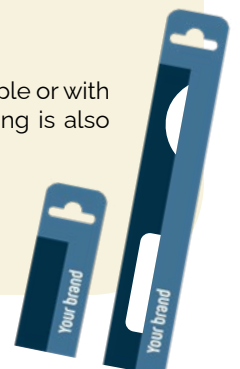

*Bioplastic base*

## Toothbrush Packaging

Toothbrushes and refills can be packaged in a box (simple or with a European hole), individually or in sets. Bulk packaging is also possible.

# Wooden Toothbrushes

■ ■ Made in our factory in France

## / Wooden Toothbrush

Are you looking for the European version of the Asian bamboo toothbrush? Welcome our beechwood toothbrushes made from sustainably managed French forests!

### Product personalisation

- > Handle shape
- > Wood essence
- > Bristle colours, hardness, and materials
- > Laser engraving on the handle

**Wooden toothbrush**  
adult model

*Wood from sustainably managed French forests*

**Wooden toothbrush**  
child model

*Wood from sustainably managed French forests*

# Toothpaste

## / Solid Toothpaste

■ ■ Manufactured in France in our partner laboratory

Reflecting the values of our toothbrushes, our toothpastes are waste-free. A simple, chewy, fresh and foaming formula, ideal for your amenities and for introducing people to a different way of using toothpaste, without the plastic tubes.

**Solid Toothpaste**

Tablet format to chew

**Doypack**

### Toothpaste Packaging

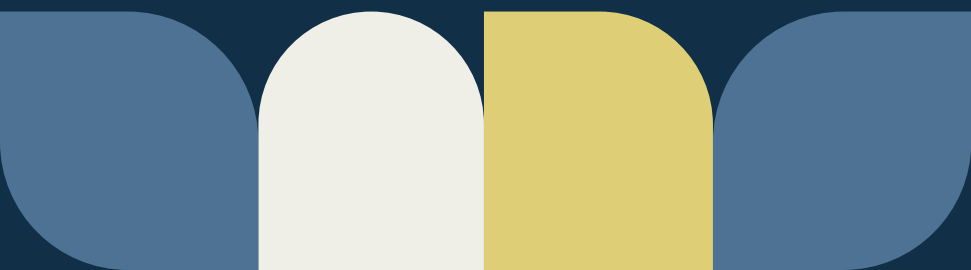

Solid toothpastes can be in bulk, packaged in a box (simple or with a European hole), individually or in sets. Also available in a food contact certified aluminium can.

**Over-packaging:** inner possible

**MOQ per reference:** 50 kg

# Accessories

## Accessories

# / Soap Holder

■ ■ Made in France

Soap holders have been around for as long as soap has existed, but with the advent of solid cosmetics across Europe, Sementis is working with brands to develop soap holders ranging from the simplest to the most stylish design.

Discover a selection of our know-how and their customisation options.

### Soap holder Packaging

Soap holder can be in bulk, packaged in a box (simple or with a European hole), individually or in sets.

**Over-packaging:** inner possible.

**MOQ per reference:** 500U, 100U for the rotating wall-mounted soap holder

### Magnetic Soap Holder

Our magnetic soap holder won the Silver Trophy for bio innovation at NATEXPO fair in 2021. Since then, several hundred thousand soap holders have been manufactured, allowing families across Europe to switch to solid cosmetics.

#### Product personalisation

- > Suction cup colour options
- > Engraving on the capsule

### Wooden Soap holder

A great classic soap holder that we can personalise with an elegant engraving.

#### Product personalisation

- > Product shape
- > Laser engraving
- > Possible finish

### Rotating Wall-Mounted Soap Holder

Nostalgia... and this 2024 version will not leave you indifferent. Sementis has revisited the wall-mounted soap holder or school soap holder and is now made in France with a beautiful solid beechwood base.

#### Product personalisation

- > Base shape
- > Base colour
- > Laser engraving
- > Possible finish

# / Beard Accessories

An essential accessory for a perfect shave, the shaving brush is the ideal complement to your range of accessories. All handles are made of wood in France by our partner carpenter.

#### Product personalisation

- > Handle shape
- > Handle colour
- > Possible laser engraving
- > Various finishes available (matt / varnish)
